# 1st Grade College and Career Ready Unit of Study

## Purpose for Reading & Learning:

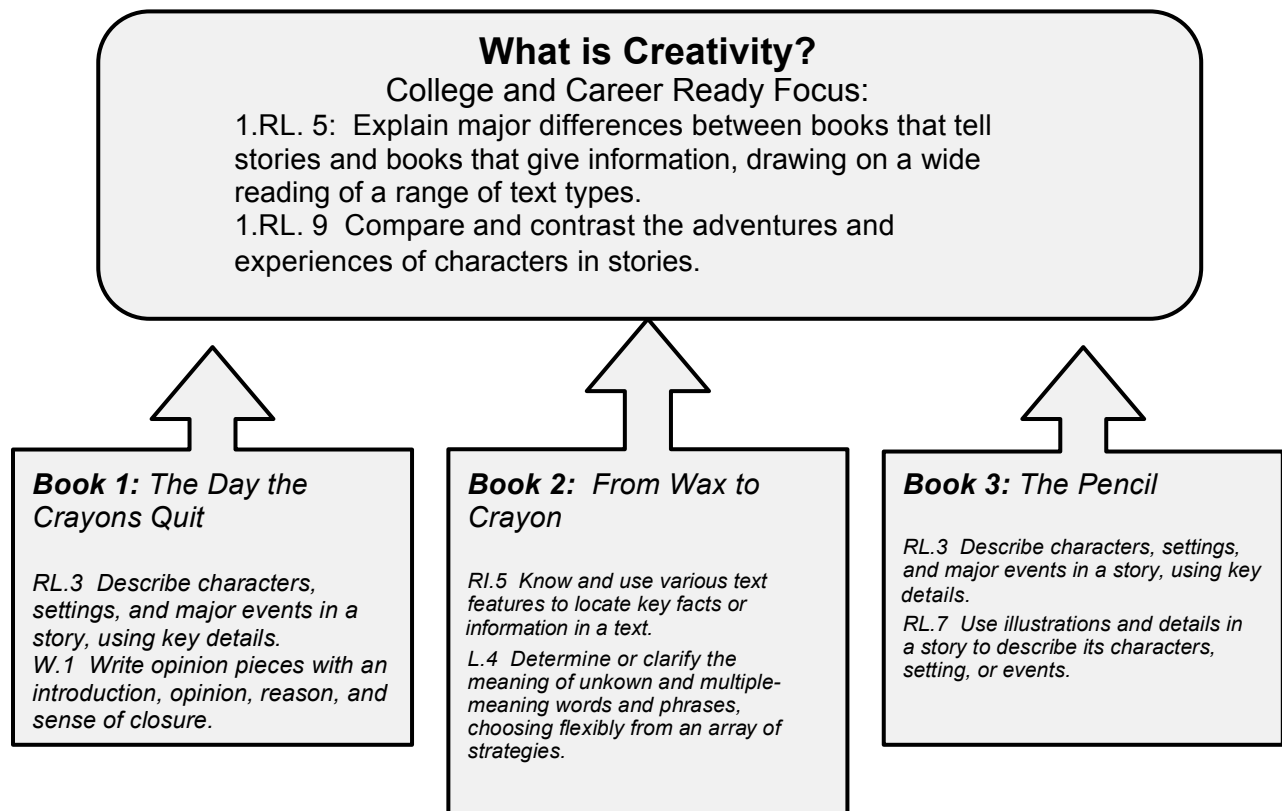

The overall unit purpose is to explore the essential question:  
What is creativity?

In addition, each book will explore its own guiding question:

*The Day the Crayons Quit* - Why is creativity important? How can practicing our creativity help us?

*From Wax to Crayon* - How can tools, like crayons, help us be creative?

*The Pencil* - How can thinking be creative? When might we want to think creatively?

## Pacing Guide:

This unit is designed to be completed in 5 - 6 instructional days. The assessment contains questions from each of the 3 texts. The individual sections of the assessment may be completed following reading and instruction for each text **or** after the study of all 3 texts - at the teacher's discretion.

The Day the Crayons Quit 1 day of instruction

From Wax to Crayon 2 days of instruction

The Pencil 2 days of instruction

## Student Texts

1. The Day the Crayons Quit, by Drew Daywalt (2013)

Lexile 730

Fictional text

*Synopsis:*

*Poor Duncan just wants to color. But when he opens his box of crayons, he finds only letters, all saying the same thing: We quit! Beige is tired of playing second fiddle to Brown. Blue needs a break from coloring all that water, while Pink just wants to be used. Green has no complaints, but Orange and Yellow are no longer speaking to each other. What is Duncan to do? Debut author Drew Daywalt and New York Times bestseller Oliver Jeffers create a colorful solution in this playful, imaginative story that will have children laughing and playing with their crayons in a whole new way.*

2. From Wax to Crayon, by Robin Nelson (2013)

Lexile 370

Informational text

*Book Jacket Synopsis:*

*How does wax turn into a colorful crayon? Follow each step in the production cycle—from melting wax into a liquid to coloring a fun picture—in this fascinating book!*

3. The Pencil, by Allan Ahlberg (2008)

Lexile 540

Narrative fiction

*Book Jacket Synopsis:*

*Once there was a pencil, a lonely little pencil, and nothing else. It lay there, which was nowhere in particular, for a long, long time. Then one day that little pencil made a move, shivered slightly, quivered somewhat... and began to draw. What did he draw? Whom did he draw? What did they do? Find out in this comical story about a pencil and the world he creates, brought to life by the imaginative twosome behind The Runaway Dinner and Previously.*

## DAY 1 Phonics Instruction: Predictable Vowel Team – ai / ay

See Student Resources for word cards, letter tiles, & fluency passage 1

1.RF.2.a Distinguish long from short vowel sounds in spoken single-syllable words.

1.RF.3.c Know final -e and common vowel team conventions for representing long vowel sounds.

Section	Instructional Routine for DAY 1
Warm-up Activity <b>2 min.</b>	<b>Oral Word Chain:</b> cat, bat, bag, brag, rag, rab, grab, grad, rad, rid <i>See Tracking Mat in Student Resources</i> <b>Tracking changes with color blocks / manipulatives:</b> Teacher asks students to track changes in orally presented word chain. Students will substitute, add, and delete phonemes represented by color blocks / manipulatives.
Phonological Awareness and Articulation of Skill <b>3 min.</b>	<b>Introduction of skill:</b> Teacher models the articulation of the long /ā/ sound. Explain 2 vowel teams (ai / ay) stand for the long /ā/ sound. Students practice articulation chorally and individually. <b>Oral Word List:</b> ran, rain, tap, tail, play, plan, grab, gray, crayon <b>Activate Phonemic Awareness:</b> Teacher says words with long and short a vowel sounds. Students indicate with thumbs up for words that have the long /ā/ sound. Thumbs down for words with the short /ă/ sound. <b>Articulation Notes for long /ā/:</b> The front part of the tongue is mid-height in the mouth. The lips are unrounded and the facial muscles are relatively tense.
Letter-Sound Correspondence <b>2 min.</b>	<b>Word Cards for Sorting:</b> May, Gail, play, rain, stray, day, stays, tail, gray, trail, pain, waits, ran, wax, add, vat, has, pack, wrap. <b>Letter sound Correspondence:</b> Students will differentiate between vowel team (ai / ay) words and non-pattern words. The teacher will pass out word cards having ai / ay vowel spellings to students. Students with each vowel team will organize themselves into 2 groups; students with short /ă/ word cards will organize into a 3rd group.
Word Blending Routine <b>5 min.</b>	<b>Word Reading Cards (from above):</b> May, Gail, play, rain, stray, day, stays, tail, gray, trail, pain, waits <b>I Do:</b> Teacher reads 2/ 3 words from <b>ay</b> pattern word cards, modeling visual identification of <b>ay</b> pattern and blending sounds to read the whole word. <b>We Do:</b> Teacher and students read all <b>ay</b> pattern word cards together, practicing identifying ay pattern and blending to read the whole word. <b>You Do:</b> Ask students to whisper read all of the <b>ay</b> words with a partner. <i>*Repeat the I Do, We Do, and You Do routine for <b>ai</b> pattern words.</i>
Word Work: Word Building with Letter Tiles <b>5 min.</b>	<i>See Tracking Mat in Student Resources</i> <b>I Do:</b> Write the word May on the board with a think aloud. Change May to day. Ask students to think about where the long /ā/ sound is in the word. Most often, when the /ā/ is at the <u>end</u> of the word, the spelling is <b>ay</b> . Write rain on the board. Change rain to rail. Most often, when the /ā/ is in the <u>middle</u> of the word, the spelling is <b>ai</b> . <b>Word Building Chains:</b> day, bay, say, stay. rain, pain, pail, tail <b>We Do:</b> Have students use letter tiles to form the word day on their own and blend the sounds orally together. What is the word? Change the “d” to “b” and blend the sound

	<p>orally together. What is the new word?</p> <p><b>You Do:</b> Students make the word chains above with a partner using their letter tiles. One partner can tell the other which letter to change and then together they blend and read the new word. Rotate around the room and provide corrective feedback as needed.</p>
<p>Words for Dictation</p> <p><b>3 min.</b></p>	<p>May, tail, play, ray, wait, play, rain, stay, pain, trail</p>
<p>Text Application &amp; Fluency</p> <p><b>10 min.</b></p>	<ul style="list-style-type: none"> <li>• Have students identify the words in passage 1 that contain the long /ā/ (ai / ay) by highlighting / underlining the text</li> <li>• Read the identified words</li> <li>• Read the passage</li> </ul> <p><b>Skill Specific Passage 1 Words:</b> day, gray, rain, May, Gail, play, wait, trail, tail, stays, okay</p>

## Vocabulary Review Menu of Activities

(shared by Kayce Patterson, NM Regional Reading Coach, 2013. Adapted from Beck, McKeown, & Kuchan, 2002).

*Use these suggested activities on words that have already been introduced. A variety of activities is listed to provide choice for both the teacher and students. These activities can be used in any combination and in any order.*

**General Review of Meaning and Usage:** Students work together in pairs or small groups to “quiz” each other.

Variation 1) Students use their personal glossaries in the Reading Response Journal to ask peers for a meaning, or a sentence for, or synonyms for a given word.

Variation 2) Each student chooses 4 vocabulary words. The student writes the word on one side of an index card, and the student friendly definition on the other side of the card. The student tapes the cards on his/her sleeves, then walks around, asking classmates if they can say what’s on the back side of the card (it may be the word, or the definition, depending on how the student taped them). If the classmate gets the right answer, the classmate pulls the card off and keeps it as a “point”. The student with the most cards at the end of the given time frame wins.

Variation 3) Working in pairs or small groups, students complete a Word Family Tree for each word. *See Resources: Forms and Reproducibles section of this unit for Word Family Tree template.*

Variation 4) Students create a 3-part vocabulary chart with the day’s words. When complete, students fold one side of the 3-part vocabulary chart back (the picture side, or the word side), so the owner sees only one row of the chart, and the partner sees a different row. Pairs face each other and quiz the other on the word’s definition. *See Resources: Forms and Reproducibles section of this unit for the 3-part vocabulary chart template.*

**Word Relationships:** Students respond to how two words might be related. Teachers should model how to do this before assigning to students.

Variation 1) Ask students how two words may be related or connected.

*How might RUFFLED and GLITTERING be connected? The model wore a ruffled dress that was glittering in the candlelight.*

*How might COZY and DOZING be connected? The cat laid on the cozy cushion, dozing in the sunlight.*

Variation 2) Teacher poses a question around two target words. Students respond and explain their response.

*Can ORDINARY people be FASCINATING?*

Variation 3) Teacher creates analogies for students to complete. Later, students can create their one for classmates to complete.

*A DETERMINED person is someone who is really set on getting something done, while a WAVERING person is \_\_\_\_\_.*

Variation 4) Students sort vocabulary words into various categories (categories can be designated by the teacher, or student created). Students will explain why they sorted words the way they did.

Variation 5) Students place words on a teacher created continuum line.

*Very slow* \_\_\_\_\_ *Very fast*  
                    PLOD           TRUDGE           BOUND           SPRINT

**Connect to Self:** Students are asked to connect the vocabulary words to something familiar to them. It may be other words, people, happenings, books, movies, common experiences, etc.

Variation 1) Direct connection

*ELOQUENT reminds me of the president because he has to make a lot of speeches and say them correctly with just the right words.*

Variation 2) Students write two sentences, one in which they substitute an idea with a vocabulary word.

*I didn't want to answer the question, so I pretended that I didn't hear it.*

*I didn't want to answer the question, so I evaded it.*

**Generate Situations, Contexts, and Examples:** These are based on situations that stay constant. Students find ways to apply their words to situations and explain why. These won't work for every word.

Variation 1) Teacher provides questions including the vocabulary words for students to answer.

*What would make a teacher call her students INDUSTRIOUS? CLEVER? DILIGENT?*

Variation 2) The teacher poses questions that require students to use vocabulary across various contexts.

*What would a SPLENDID day for ducks be like?*

*What would be a SPLENDID meal for vegetarians?*

*Who would be a SPLENDID friend, and why?*

Variation 3) Students work together to come up with answers in which situations remain the same, but application changes.

*How might a cook/musician/veterinarian/teacher show that he/she is VERSATILE?*

Variation 4) Students work together to make lists to accompany vocabulary words.

*Name 3 things that would be CATASTROPHIC.*

**Writing:** Students write thoughtful responses and uses for vocabulary words.

Variation 1) Students use sentence stems, including the word 'because' or 'when'.

*The king was \_\_\_\_ (student inserts vocabulary word) because \_\_\_\_.*

*Yesterday I \_\_\_\_ (student inserts vocabulary word) when \_\_\_\_.*

Variation 2) Teacher provides a writing prompt that will help students build personal connections with vocabulary words.

*Think of a time when you felt either ENVIOUS, COOPERATIVE, OR PLACID. Write about why you felt that way.*

*Think of a time when you might need to INVESTIGATE or be IMPRESSIVE. Write a paragraph to tell about it.*

Variation 3) Students use a prompt or an idea generator, then link target words together in a story. Students should use as many vocabulary words as possible.

*Who? An old woman      What? All the lights go out      Where? In a mall*

Variation 4) Students are asked to think (and write) of ways their target words can be used differently in the story where they came from, or how they could be used in a different story.

## Context Clues

### Copied directly from Reading Rockets

<http://www.readingrockets.org/article/using-context-clues-understand-word-meanings>

#### Introduction

When attempting to decipher the meaning of a new word, it is often useful to look at what comes before and after that word. The surrounding words can give readers helpful context clues about the meaning and structure of the new word, as well as how it is used.

Using context clues aligns with the following ELA Standard:

- ELA-Literacy.CCRA.L.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

#### Helping struggling students use context clues

There are six common types of context clues (see below), and teachers need to provide struggling students and those with learning disabilities with direct instruction in how to use these clues.

#### Common Types of Context Clues

- Root word and affix: People who study birds are experts in ornithology.
- Contrast: Unlike mammals, birds incubate their eggs outside their bodies.
- Logic: Birds are always on the lookout for predators that might harm their young.
- Definition: Frugivorous birds prefer eating fruit to any other kind of food.
- Example or illustration: Some birds like to build their nests in inconspicuous spots — high up in the tops of trees, well hidden by leaves.
- Grammar: Many birds migrate twice each year.

Teachers have found it effective to model a self-questioning strategy to identify the different types of context clues. You can ask questions that are designed to focus attention on the unknown word and the possible clues to its meaning, such as: What are the surrounding words? How do these offer me clues? What does this word mean in terms of the context?

It is also helpful to provide students with frequent reminders and examples of the different types of context clues. Using online tools, you can post the list of context clues (and some corresponding examples) on your class wiki, website, or blog. You can also display the list on the bulletin board in your classroom so that students can easily remind themselves about context clues. Students can also keep examples in their reading or writing portfolios.

### Character Analysis Chart

For each entry, provide the page number on which the detail is found.

## Sentence Web

A graphic organizer/tool to help students write longer, more complex sentences.

3.L.1 Demonstrate command of the conventions of standard English grammar and usage when writing or speaking. a) Explain the function of nouns, pronouns, verbs, adjectives, and adverbs in general and their functions in particular sentences. f) Ensure subject-verb and pronoun-antecedent agreement. g) Form and use comparative and superlative adjectives and adverbs, and choose between them depending on what is to be modified. i) Produce simple, compound, and complex sentences.

## Sentence Elaboration Protocol

Based on “Masterpiece Sentences” activity in LANGUAGE! 2<sup>nd</sup> Edition (Greene, 2000).

1) Create a basic sentence with a base subject and base predicate. Draw a box around each part.

- Ask *who* or *what* did it (subject), and *what did the subject do* (predicate):

2) Stretch the predicate by asking:

- *How* did s/he do it?
- *When* did s/he do it?
- *Where* did s/he do it?

Write each response on a different card or sentence strip.

The dog  
barked  
ferociously  
in the middle of the night  
downstairs.

3) Move the predicate parts.

- The dog barked ferociously downstairs in the middle of the night.
- The dog barked in the middle of the night, ferociously, downstairs.
- The dog barked downstairs, ferociously, in the middle of the night.

4) Add to the subject by asking:

- *Which?*
- *What kind of?*
- *How many?*

Write each response on a different card or sentence strip.

**In the middle of the night, the solitary, fearsome guard dog barked ferociously downstairs.**

5) Add detail or substitute synonyms if necessary.

**Near midnight, a single, formidable guard dog barked ferociously downstairs.**

6) Polish, if needed. Sometimes less is more.

**Near midnight, a single, formidable guard dog barked viciously.**

### KINDERGARTEN – 2<sup>ND</sup> GRADE ARIZONA READING STANDARDS – FOUNDATIONAL SKILLS

#### Reading Standards: Foundational Skills

These standards are directed toward fostering students’ understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system. These foundational skills are not an end in and of themselves; rather, they are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. Instruction should be differentiated; good readers will need much less practice with these concepts than struggling readers will. The point is to teach students what they need to learn and not what they already know—to discern when particular children or activities warrant more or less attention.

**Note:** *In kindergarten, children are expected to demonstrate increasing awareness and competence in the areas that follow.*

Kindergarteners:	Grade 1 students:
Print Concepts	
1. Demonstrate understanding of the organization and basic features of print. <ul style="list-style-type: none"><li>a. Follow words from left to right, top to bottom, and page by page.</li><li>b. Add or substitute individual sounds (phonemes) in simple, one-syllable words to make new words. <b>(K.RF.2)</b></li></ul>	2.
