Look back at our What is Creativity Chart. Write 4 sentences about what you think creative thinking is, and when you might need to think creatively.

2. What's the setting of this story? Where does this story's setting come from?

Vocabulary Review Menu of Activities

(shared by Kayce Patterson, NM Regional Reading Coach, 2013. Adapted from Beck, McKeown, & Kuchan, 2002).

Use these suggested activities on words that have already been introduced. A variety of activities is listed to provide choice for both the teacher and students. These activities can be used in any combination and in any order.

General Review of Meaning and Usage: Students work together in pairs or small groups to “quiz” each other.

Variation 1) Students use their personal glossaries in the Reading Response Journal to ask peers for a meaning, or a sentence for, or synonyms for a given word.

Variation 2) Each student chooses 4 vocabulary words. The student writes the word on one side of an index card, and the student friendly definition on the other side of the card. The student tapes the cards on his/her sleeves, then walks around, asking classmates if they can say what's on the back side of the card (it may be the word, or the definition, depending on how the student taped them). If the classmate gets the right answer, the classmate pulls the card off and keeps it as a “point”. The student with the most cards at the end of the given time frame wins.

Variation 3) Working in pairs or small groups, students complete a Word Family Tree for each word. *See Resources: Forms and Reproducibles section of this unit for Word Family Tree template.*

Variation 4) Students create a 3-part vocabulary chart with the day's words. When complete, students fold one side of the 3-part vocabulary chart back (the picture side, or the word side), so the owner sees only one row of the chart, and the partner sees a different row. Pairs face each other and quiz the other on the word's definition. *See Resources: Forms and Reproducibles section of this unit for the 3-part vocabulary chart template.*

Word Relationships: Students respond to how two words might be related. Teachers should model how to do this before assigning to students.

Variation 1) Ask students how two words may be related or connected.

How might RUFFLED and GLITTERING be connected? The model wore a ruffled dress that was glittering in the candlelight.

How might COZY and DOZING be connected? The cat laid on the cozy cushion, dozing in the sunlight.

Variation 2) Teacher poses a question around two target words. Students respond and explain their response.

Can ORDINARY people be FASCINATING?

Variation 3) Teacher creates analogies for students to complete. Later, students can create their one for classmates to complete.

A DETERMINED person is someone who is really set on getting something done, while a WAVERING person is _____.

Variation 4) Students sort vocabulary words into various categories (categories can be designated by the teacher, or student created). Students will explain why they sorted words the way they did.

Variation 5) Students place words on a teacher created continuum line.

Very slow _____ *Very fast*
PLOD TRUDGE BOUND SPRINT

Connect to Self: Students are asked to connect the vocabulary words to something familiar to them. It may be other words, people, happenings, books, movies, common experiences, etc.

Variation 1) Direct connection

ELOQUENT reminds me of the president because he has to make a lot of speeches and say them correctly with just the right words.

Variation 2) Students write two sentences, one in which they substitute an idea with a vocabulary word.

I didn't want to answer the question, so I pretended that I didn't hear it.

I didn't want to answer the question, so I evaded it.

Generate Situations, Contexts, and Examples: These are based on situations that stay constant. Students find ways to apply their words to situations and explain why. These won't work for every word.

Variation 1) Teacher provides questions including the vocabulary words for students to answer.
What would make a teacher call her students INDUSTRIOUS? CLEVER? DILIGENT?

Variation 2) The teacher poses questions that require students to use vocabulary across various contexts.

What would a SPLENDID day for ducks be like?

What would be a SPLENDID meal for vegetarians?

Who would be a SPLENDID friend, and why?

Variation 3) Students work together to come up with answers in which situations remain the same, but application changes.

How might a cook/musician/veterinarian/teacher show that he/she is VERSATILE?

Variation 4) Students work together to make lists to accompany vocabulary words.

Name 3 things that would be CATASTROPHIC.

Writing: Students write thoughtful responses and uses for vocabulary words.

Variation 1) Students use sentence stems, including the word 'because' or 'when'.

The king was _____ (student inserts vocabulary word) because _____.

Yesterday I _____ (student inserts vocabulary word) when _____.

Variation 2) Teacher provides a writing prompt that will help students build personal connections with vocabulary words.

Think of a time when you felt either ENVIOUS, COOPERATIVE, OR PLACID. Write about why you felt that way.

Think of a time when you might need to INVESTIGATE or be IMPRESSIVE. Write a paragraph to tell about it.

Variation 3) Students use a prompt or an idea generator, then link target words together in a story. Students should use as many vocabulary words as possible.

Who? An old woman What? All the lights go out Where? In a mall

Variation 4) Students are asked to think (and write) of ways their target words can be used differently in the story where they came from, or how they could be used in a different story.

Some teachers write these stems on index cards or on tongue depressors. Or, you can print them out and laminate them or put them in a page protector. Students ask each other these questions during partner or small group reading.

Context Clues

Copied directly from Reading Rockets

<http://www.readingrockets.org/article/using-context-clues-understand-word-meanings>

Introduction

When attempting to decipher the meaning of a new word, it is often useful to look at what comes before and after that word. The surrounding words can give readers helpful context clues about the meaning and structure of the new word, as well as how it is used.

Using context clues aligns with the following ELA Standard:

- ELA-Literacy.1.L.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

Helping struggling students use context clues

There are six common types of context clues (see below), and teachers need to provide struggling students and those with learning disabilities with direct instruction in how to use these clues.

Common Types of Context Clues

- Root word and affix: People who study birds are experts in ornithology.
- Contrast: Unlike mammals, birds incubate their eggs outside their bodies.
- Logic: Birds are always on the lookout for predators that might harm their young.
- Definition: Frugivorous birds prefer eating fruit to any other kind of food.
- Example or illustration: Some birds like to build their nests in inconspicuous spots — high up in the tops of trees, well hidden by leaves.
- Grammar: Many birds migrate twice each year.

Teachers have found it effective to model a self-questioning strategy to identify the different types of context clues. You can ask questions that are designed to focus attention on the unknown word and the possible clues to its meaning, such as: What are the surrounding words? How do these offer me clues? What does this word mean in terms of the context?

It is also helpful to provide students with frequent reminders and examples of the different types of context clues. Using online tools, you can post the list of context clues (and some corresponding examples) on your class wiki, website, or blog. You can also display the list on the bulletin board in your classroom so that students can easily remind themselves about context clues. Students can also keep examples in their reading or writing portfolios.

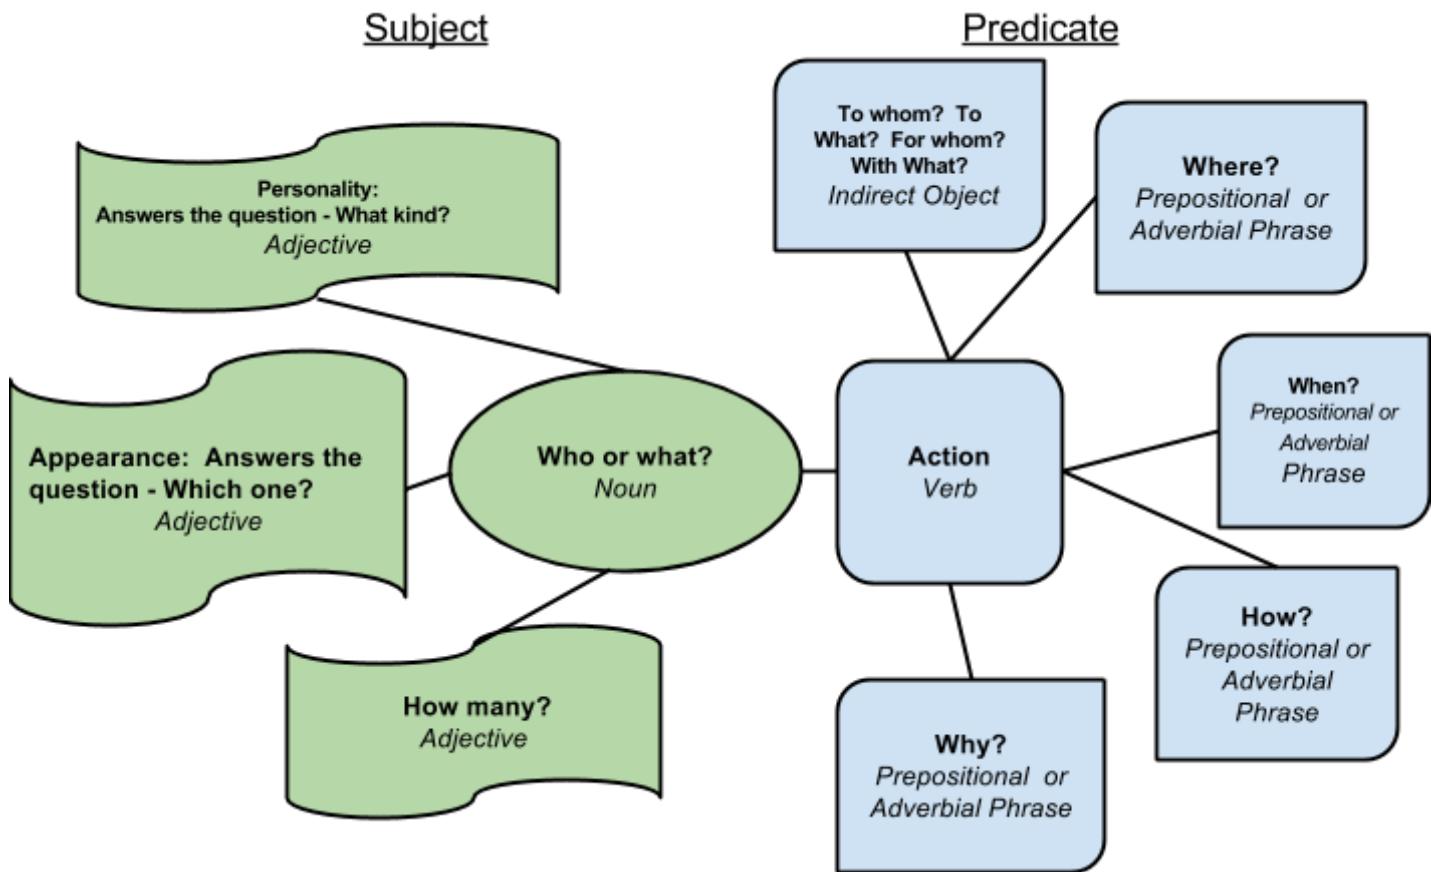

Character Analysis Chart

For each entry, provide the page number on which the detail is found.

CHARACTER	APPEARANCE	PERSONALITY	ACTIONS

Sentence Web

A graphic organizer/tool to help students write longer, more complex sentences.

3.L.1 Demonstrate command of the conventions of standard English grammar and usage when writing or speaking. a) Explain the function of nouns, pronouns, verbs, adjectives, and adverbs in general and their functions in particular sentences. f) Ensure subject-verb and pronoun-antecedent agreement. g) Form and use comparative and superlative adjectives and adverbs, and choose between them depending on what is to be modified. i) Produce simple, compound, and complex sentences.

Sentence Elaboration Protocol

Based on “Masterpiece Sentences” activity in LANGUAGE! 2nd Edition (Greene, 2000).

1) Create a basic sentence with a base subject and base predicate. Draw a box around each part.

- Ask who or what did it (subject), and what did the subject do (predicate):

2) Stretch the predicate by asking:

- How did s/he do it?
- When did s/he do it?
- Where did s/he do it?

Write each response on a different card or sentence strip.

The dog
barked
ferociously
in the middle of the night
downstairs.

3) Move the predicate parts.

- The dog barked ferociously downstairs in the middle of the night.
- The dog barked in the middle of the night, ferociously, downstairs.
- The dog barked downstairs, ferociously, in the middle of the night.

4) Add to the subject by asking:

- Which?
- What kind of?
- How many?

Write each response on a different card or sentence strip.

In the middle of the night, the solitary, fearsome guard dog barked ferociously downstairs.

5) Add detail or substitute synonyms if necessary.

Near midnight, a single, formidable guard dog barked ferociously downstairs.

6) Polish, if needed. Sometimes less is more.

Near midnight, a single, formidable guard dog barked viciously.

KINDERGARTEN – 2ND GRADE ARIZONA READING STANDARDS – FOUNDATIONAL SKILLS

Reading Standards: Foundational Skills

These standards are directed toward fostering students' understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system. These foundational skills are not an end in and of themselves; rather, they are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. Instruction should be differentiated; good readers will need much less practice with these concepts than struggling readers will. The point is to teach students what they need to learn and not what they already know—to discern when particular children or activities warrant more or less attention.

Note: In kindergarten, children are expected to demonstrate increasing awareness and competence in the areas that follow.
