Grades 4-6 Classroom Book Sets

The book sets for grades 4-6 are designed with differentiation in mind. First of all, the fiction and informational books have been paired to compliment each other and chosen for low, average, and high readers that exist in classrooms. Next, the books have been put into two major themes:

'Blast into the Past' and 'Exciting Excursions' to help with thematic units.

Finally, the activities are scaffolded and address multiple learning styles and preferences while addressing the standards that each state in the program requires.

Please contact your BCSCR regional coordinator for more information and to schedule a time to utilize a set with your students.
